Claims 1-19 are presented for examination.

The amendments and remarks filed on July 29, 2002 have been received and entered.

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-19 are rejected under 35 U.S.C. 102 (b) as being anticipated by Richmond et al..

Richmond et al. Teach the use of HEPES in combination with bicarbonate, electrolytes and an energy source in an irrigating composition. See table 1. The use of such composition for irrigation during ophthalmic surgery is also taught. See page 3, paragraph 4, lines 5 and 6.

The amendments of July 29, 2002 necessitates a new ground for rejection.
